Collaborating against Human Trafficking - Kirsten Foot 2015-09-03

In the fight against human trafficking, cross-sector collaboration is vital—but often, systemic tensions undermine the effectiveness of these alliances. Kirsten Foot explores the most potent sources of such difficulties, offering insights and tools that leaders in every sector can use to re-think the power dynamics of partnering. Weaving together perspectives from many sectors including business, donor foundations, mobilization and advocacy NGOs, faith communities, and survivor-activists, as well as government agencies, law enforcement, and providers of victim services, Foot assesses how differences in social location (financial well-being, race, gender, etc.) and sector-based values contribute to interpersonal, inter-organizational, and cross-sector challenges. She convincingly demonstrates that finding constructive paths through such multi-level tensions—by employing a mix of shared leadership, strategic planning, and particular practices of communication and organization—can in turn facilitate more robust and sustainable collaborative efforts. An appendix provides exercises for use in building, evaluating, and trouble-shooting multi-sector collaborations, as well as links to online tools and recommendations for additional resources. All royalties from this book go to nonprofits in U.S. cities dedicated to facilitating cross-sector collaboration to end human trafficking. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States - National Research Council 2014-06-20

Commercial sexual exploitation and sex trafficking of minors in the United States are frequently overlooked, misunderstood, and unaddressed domestic problems. In the past decade, they have received

increasing attention from advocates, the media, academics, and policy makers. However, much of this attention has focused internationally. This international focus has overshadowed the reality that commercial sexual exploitation and sex trafficking of minors also occur every day within the United States. Commercial sexual exploitation and sex trafficking of minors not only are illegal activities, but also result in immediate and long-term physical, mental, and emotional harm to victims and survivors. A nation that is unaware of these problems or disengaged from solving them unwittingly contributes to the ongoing abuse of minors and all but ensures that these crimes will remain marginalized and misunderstood. The 2013 Institute of Medicine and the National Research Council report *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* increases awareness and understanding of the crucial problem of commercial sexual exploitation and sex trafficking of minors in the United States. By examining emerging strategies for preventing and identifying these crimes, for assisting and supporting victims and survivors, and for addressing exploiters and traffickers, that report offers a path forward through recommendations designed to increase awareness and understanding and to support efforts to prevent, identify, and respond to these crimes. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States: A Guide for Providers of Victim and Support Services* offers a more concise and focused perspective on the problem and emerging solutions for providers of victim and support services for children and adolescents. These service providers include policy makers, leaders, practitioners, organizations, and programs at the local, state, and federal levels. This guide will be a valuable resource for them, and for child welfare and child protective services, other agencies and programs within the state and federal governments (e.g., the U.S. Department of Justice's Office for Victims of Crime), and nongovernmental organizations.

Routledge Handbook of Human Trafficking - Ryszard Piotrowicz
2017-08-25

Trafficking in human beings (THB) has been described as modern slavery. It is a serious criminal activity that has significant ramifications for the human rights of the victims. It poses major challenges to the state, society and individual victims. THB is not a static given but a constantly changing concept depending on societal changes and opinions, economic situations and legal developments. THB occurs both transnationally and within countries. The complexity of THB is such that it requires a wide range of expertise fully to address the phenomenon. Edited by a team of leading international academics, the *Routledge Handbook of Human Trafficking* will provide an interdisciplinary introduction to THB. It is aimed at academics, students, research universities and non-governmental organisations, as well as policy makers. It will review THB through the lens of law, anthropology, social and political science and will address statistical, data protection issues and showcase the most effective research methods, analyse the various actors and stakeholders and the different types of exploitation of trafficked persons. It will critically highlight and analyse the most pressing current challenges posed by THB.

Routledge International Handbook of Human Trafficking - Rochelle L. Dalla 2019-09-19

According to the UNODC (2015), human trafficking (HT) is the fastest growing means by which people are enslaved, the fastest growing international crime, and one of the largest sources of income for organized criminal networks. It profoundly impacts the physical and mental health of victims, their families, and entire communities and is recognized as a crime against humanity. Despite burgeoning interest,

education, research, and advocacy efforts, a pinnacle handbook devoted to human trafficking and modern-day slavery - with global focus and multidisciplinary scope - does not currently exist. The Routledge International Handbook of Human Trafficking was created to fill this resource gap. Divided into four sections, the Handbook offers the reader a comprehensive and fresh approach via: (a) in-depth analyses and opportunities for application (through case studies, critical thinking questions, and supplemental learning materials); (b) multidisciplinary linkages, with disciplinary overlap across each of the four sections acknowledged and highlighted; and (c) content experts representing multiple segments of society (academia, government, foundation, law enforcement, and practice) and global vantage points (Australia, Finland, Germany, Netherlands, South Africa, Thailand, and the United States). Written by expert scholars, service providers, policy analysts, and healthcare professionals, this Handbook is an invaluable resource for those already working in the field, as well as for students in any discipline who want to learn (or learn more) about HT and modern-day slavery.

Data and Research on Human Trafficking - Frank Laczko 2005

During the last decade there has been a considerable increase in the number of studies about human trafficking. This review of research and data on trafficking shows that despite the growing literature on trafficking around the world, relatively few studies are based on extensive or empirical research, and information on the actual numbers of people trafficked remains very sketchy. The book, which includes 9 regional chapters, and 3 chapters dealing with methodological issues, suggests a number of ways in which to enhance research and data on

human trafficking. These papers were first discussed at an international conference sponsored by the Italian Government, held in Rome in May 2004.

Ethical Concerns in Research on Human Trafficking - Dina Siegel 2015-12-08

This book presents a vivid description of the solutions that researchers have discovered for ethical dilemmas that pose themselves at studying

disadvantaged, vulnerable and victimized populations. Ethical codes prescribe that the scholar should in all circumstances avoid potential harm, that informed consent is necessary and that the limits of confidentiality should always be respected. However, in the practice of research among women involved in prostitution, illegal immigrant workers, enslaved children, people who sell their organs and all the traffickers thereof, the ethical rules cannot always be followed. This book shows that there is a surprising variety of arguable possibilities in dealing with ethical dilemmas in the field. Authors reflect on concrete experiences from their own fieldwork in a wide variety of settings such as the USA, Singapore, Kosovo and The Netherlands. Some choose to work on the basis of conscientious partiality, others negotiate the rules with their informants and still others purposely break the rules in order to disclose and damage the exploiters. Researchers may find themselves in a vulnerable position. Their experiences, as presented in this volume, will help field workers, university administrators, representatives of vulnerable groups, philosophers of ethics and most of all students to go into the field well-prepared. This is a book that every researcher planning to do fieldwork in the difficult field of hidden, illicit and victimized people should read in advance. Dr. Frank Bovenkerk, Professor (Emeritus), Willem Pompe Institute for Criminal Law and Criminology, Universiteit Utrecht, The Netherlands This book allows a peek in the kitchen of empirical fieldwork, going into not only "best practices," but mistakes made, in a frank, courageous and honest way. Bearing Witness - Andrea Nicholson 2022-09-29

Since the 1990s, modern slavery has been recognized as a global problem, with campaigners around the world providing assessments of its nature and extent, its drivers, and possible solutions for ending it. However, largely absent from the global antislavery movement's discourse and policy prescriptions are the voices of survivors of slavery themselves. Survivors' authentic voices are underemployed vital tools in the fight against modern slavery in all its forms. Through close readings of over 200 contemporary slave narratives, Andrea Nicholson repositions the history of the genre and exposes the conditions and consequences of

slavery, and the challenges survivors face in liberation. Far from the trope of 'capture, enslavement, escape,' she argues that narratives are rich and vitally important sources that enable the antislavery community to be gain important insights and build more effective interventions.

Sex, Slavery and the Trafficked Woman - Ramona Vijayarasa 2016-03-03

Sex, Slavery and the Trafficked Woman is a go-to text for readers who

seek a comprehensive overview of the meaning of 'human trafficking' and current debates and perspectives on the issue. It presents a more nuanced understanding of human trafficking and its victims by examining - and challenging - the conventional assumptions that sit at the heart of mainstream approaches to the topic. A pioneering study, the arguments made in this book are largely drawn from the author's fieldwork in Ukraine, Vietnam and Ghana. The author demonstrates to readers how a law enforcement and criminal justice-oriented approach to trafficking has developed at the expense of a migration and human rights perspective. She highlights the importance of viewing trafficking within a broad spectrum of migratory movement. The author contests the coerced, female victim archetype as stereotypical and challenges the reader to understand trafficking in an alternative manner, introducing the counterintuitive concept of the 'voluntary victim'. Overall, this text provides readers of migration and development, gender studies, women's rights and international law a comprehensive and multidisciplinary analysis of the concept of trafficking.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States - National Research Council
2013-11-12

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.
