Eidolon - Alan Chant
2018-06-14

The book follows the two
children as they embark on an

adventure, which begins with
the discovery of a hidden
witch's haven in a graveyard
and Jordan's first encounter
with the spirit world - but by
know means the first for
Sebastian. Then a haunted
observatory on the outskirts of
town yields a clue - a piece of
an intriguing map leading to,
what they believe to be, hidden
treasure. After collecting the
rest of the clues from around
the town, Jordan and Sebastian
search for the treasure, but
instead of rubies, emeralds and
gold doubloons, they find
themselves lead to a doorway
into another world, called the
Phantom Realm.

Ford Tractor Conversions -

Stuart Gibbard 2003-10

This illustrated work covers the stories of five British engineering companies that produced successful ranges of agricultural, earthmoving or construction machinery.

County, Doe, Chaseside, Muir-Hill, Matbro and Bray all made extensive use of the Ford tractor skid unit as a basis for their machines and they pioneered the development of the four-wheel drive agricultural tractor in Britain. Stuart Gibbard gives details of

all the main models and machines of these manufacturers. He chronicles the fortunes of the firms from the beginning of the 20th century to the present day and discusses many of the personalities involved.

ever published (not to mention numerous books and countless web sites) has taken stabs at creating comprehensive glossaries of automotive enthusiasts terms and phrases. Finally Motorbooks has done it right with the publication of The Ultimate Hot Rod Dictionary. The title says it all. This book is 243 pages thick and includes more than 1,600 words and phrases, with definitions, phrase origins and examples of usage. In addition, the dictionary includes more than 225 line-art illustrations. "If you never thought you'd find yourself reading a dictionary, this informative and fun book may surprise you. - Rod and Custom, October, 2004 Perplexed about Peg Leggers? Curious about Crazy Stacks? Every enthusiast group inevitably spawns its own slang, but few are as rich as that which has evolved around the world of hot rods and customs. Once a unique American sub-language, the gearhead vernacular has long since gone global. Containing

some 1,700 entries, this first-ever dictionary of the colorful language and phraseology that has developed in the world of hot rodding and customizing features not just terms used to describe the technologies and designs, but also those pertaining to the culture itself. In the end it's not just a dictionary with something for everyone from newbies to vets, but a book that reveals how the customizers have, in fact, customized their lingo. Includes specially commissioned line-art illustrations and cross-references for related or like terms.

The Contemporary Freudian Tradition - Ken Robinson
2020-10-20

This is the first book dedicated to the Contemporary Freudian Tradition. In its introduction, and through its selection of papers, it describes the development and rich diversity of this tradition over recent decades, showing how theory and practice are inseparable in the psychoanalytic treatment of children, adolescents and adults. The book is organized around four major concerns in the Contemporary Freudian Tradition: the nature of the Unconscious and the ways that it manifests itself; the extension of Freud's theories of development through the work of Anna Freud and later theorists; the body and psychosexuality, including the centrality of bodily experience

as it is elaborated over time in the life of the individual; and aggression. It also illustrates how within the Tradition different exponents have been influenced by psychoanalytic thinking outside it, whether from the Kleinian and Independent Groups, or from French Freudian thinking. Throughout the book there is strong emphasis on the clinical setting, in, for example, the value of the Tradition's approach to the complex interrelationship of body and mind in promoting a deeper understanding of somatic symptoms and illnesses and working with them. There are four papers on the subject of dreams within the Contemporary Freudian Tradition, illustrating the continuing importance accorded to dreams and dreaming in psychoanalytic treatment. This is the only book that describes in detail the family resemblances shared by those working psychoanalytically within the richly diverse Contemporary Freudian Tradition. It should

appeal to anyone, from student onwards, who is interested in the living tradition of Freud's work as understood by one of the three major groups within British psychoanalysis.
