Tango and the Dancing Body in Istanbul - Melin Levent Yuna 2021-11-12

Tango and the Dancing Body in Istanbul explores the expansion of social Argentine tango dancing among Muslim actors in Turkey, pioneered in Istanbul despite the conservative rule of the Justice and Development Party (JDP) and Tayyip Erdoğan. In this book, Melin Levent Yuna questions why a dance that appears to publicly represent an erotic relationship finds space to expand and increase dramatically in the number of contemporary Turkish Muslim tango dancers, particularly during a conservative rule. Even during the 2020 Covid-19 pandemic, tango dance classes, gatherings, and messages flourished on YouTube, Facebook, Instagram, and Zoom. Urban Turkey and its tango dance performances provide one symbol and example of how neoliberal capitalism could go hand in

hand with conservatism by becoming a bridge between Europe and the Middle East. This study largely focuses on the dancers' perspective while presenting the policies of Erdoğan. It presents the social characteristics of the tango dancers, the meanings they attach to their bodies and their dance as well as what this dance reflects about them - besides the policies of the Justice and Development Party. The book approaches the tango dance and its dancing body in terms of layers of meaning systems in a neoliberal and conservative context. This study will be of great interest to students and scholars in dance, anthropology, cultural studies, and performance studies.

But no one ever listens to Runt -- even after people with seasonal plans and roasting pans begin showing up at Wishbone Farm, or even after the juiciest turkeys are chosen, one by one. "Chosen for what?" Turk asks. No one wants to hear Runt's answer. But you will laugh at what he has to do to get his family's attention. They are, after all, turkeys.
