*Let's Get Real* - Matthew Bateman 2022-01-01

Let's Get Real is a call to action

to all Australians who want to take control of their destiny and fulfil their life goals. The authors believe that most property investors don't succeed because they approach investing in the wrong way - it's not about the property, it's about the investor. If investors have the correct mindset, understand their motivation, define their goals and put together an A-Team of experts, they will proceed from their Point A (their current position) to their Point B (where they achieve their goals).

Sustainable Automotive Technologies 2012 -

Aleksandar Subic 2012-03-02

The book on Sustainable Automotive Technologies aims to draw special attention to the research and practice focused on new technologies and approaches capable of meeting the challenges to sustainable

mobility. In particular, the book features incremental and radical technical advancements that are able to meet social, economic and environmental targets in both local and global contexts. These include original solutions to the problems of pollution and congestion, vehicle and public safety, sustainable vehicle design and manufacture, new structures and materials, new power-train technologies and vehicle concepts. In addition to vehicle technologies, the book is also concerned with the broader systemic issues such as sustainable supply chain systems, integrated logistics and telematics, and end-of-life vehicle management. It captures selected peer reviewed papers accepted for presentation at the 4th International Conference on Sustainable Automotive Technologies, ICSAT2012, held at the RMIT, Melbourne, Australia.

'It was a rare malfunction in the Cryolab that led to the return of the deranged mutant Darkon. A blink in the electricity system turned the humidity meter off. It took no longer than a minute for the maintenance engineers to spot the malfunction and fix it, but the time was enough for a bead of moisture to form and drop into the softly humming motor that controlled the temperature of the open-lidded deep freeze capsule that housed the gross shape of Darkon.
