The Art of Living - Alexander Nehamas 2000-03

In this wide-ranging, brilliantly written account, Nehamas provides an incisive reevaluation of Socrates' place in the Western philosophical tradition and shows the importance of Socrates for Montaigne, Nietzsche, and Foucault.

Exploring ADHD - Simon Bailey 2013-08-15

Attention Deficit Hyperactivity Disorder (ADHD) is the most commonly diagnosed psychiatric condition of childhood worldwide, yet the medical and psychological perspectives that dominate our understandings of ADHD present problems in their reductive understanding of the condition. Exploring ADHD incorporates Michel Foucault's notions of discourse and power into a critical ethnographic framework in order to analyse ADHD in terms of both the historical conditions that have shaped understandings of the disorder, and also the social conditions which build individual diagnostic cases in today's schools and families. In this ground-breaking text, Simon Bailey also: acknowledges the necessary work of classrooms, schools and families in contributing to a social order; examines the problem of teacher autonomy and the constraints placed on schools to 'perform'; describes the role of nurture groups in governing the emotional conduct of children; presents a unique gender analysis of ADHD. This fascinating new book will be of interest to researchers and academics in the field of early childhood education, special and inclusive education, and will illuminate and spark new debate in the arena of ADHD.

The Biopolitics of Gender - Jemima Repo 2016

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

Foucault, Sexuality, Antiquity - Sandra Boehringer 2022-06-23

Foucault, Sexuality, Antiquity, published for the first time in English, takes an interdisciplinary approach to exploring how the work of Michel Foucault has influenced studies of ancient Greece and Rome. Foucault's *The History of Sexuality* has had a profound and lasting impact across the humanities and social sciences. In the two volumes dedicated to pagan antiquity, Foucault provided scholars with new questions for addressing ancient Greek and Roman societies, and an original epistemological framework for thinking about eroticism and about the processes by which individuals are led to recognize themselves as the subjects of their desires. Now, decades later, the scholars in this volume explore Foucault's role in shaping and reorienting discussions of antiquity in the fields of philosophy, gender studies, and psychoanalysis, among others. A multidisciplinary exploration of Foucault's work and its relationship to our understanding of ancient Greco-Roman societies, *Foucault, Sexuality, Antiquity* will be of interest to students and scholars in classical studies, philosophy, gender studies, and ancient history.

International Student Engagement in Higher Education - Margaret Kettle 2017-06-15

Hand-in-hand with the continuing drive to recruit international students to Western universities goes an interest in student engagement.

However, it is often unclear exactly what is meant by engagement. This book goes beyond the policy rhetoric to provide a practice-based explication of international student engagement and its enabling institutional conditions. By utilising a social practice conceptual model,

the book explains the multiple dimensions of engagement that are often conflated in policy: the antecedents to engagement, the actions of engaging, and the achievements and outcomes of engagement. As a result, the book is able to address issues such as how English comes to matter in international student academic practice; the teaching and assessment approaches that promote international student engagement; and the metacognitive, cognitive and affective strategies that international students use to achieve academic and personal transformation.

Foucault, Christianity and Interfaith Dialogue - Henrique Pinto 2020-11-25

Foucault, Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas, Michel Foucault. The author argues that it is the injustice done to the 'Other' by Roman Catholic, Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault's de-centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play, in the constitution of the self and the making of society. This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non-unitary theology of religious pluralism and an open-textured process of self-transformation. The author's original and imaginative application and expansion of Foucault's concept of the 'More' from *The Archaeology of Knowledge* (1969) makes important and original contributions to academic work on Foucault and contemporary theology.

New Reproductive Technologies and Disembodiment - Carla Lam 2016-04-22

With attention to the ways in which new reproductive technologies facilitate the gradual disembodiment of reproduction, this book reveals the paradox of women's reproductive experience in patriarchal cultures as being both, and often simultaneously, empowering and disempowering. A rich exploration of birth appropriation in the West, *New Reproductive Technologies and Disembodiment* investigates the assimilation of women's embodied power into patriarchal systems of symbolism, culture and politics through the inversion of women's and men's reproductive roles. Contending that new reproductive technologies represent another world historical moment, both in their forging of novel social relations and material processes of reproduction, and their manner of disembodiment of women in unprecedented ways - a disembodiment evident in recent visual and literary, popular and academic texts - this volume locates the roots of this disembodiment in western political discourse. A call to feminist political theory to re-remember the material dimensions of bodies and their philosophical significance, *New Reproductive Technologies and Disembodiment* will appeal to scholars of sociology, gender studies, political and social theory and the study of science, technology and health.

Art Psychotherapy & Narrative Therapy: An Account of Practitioner Research - Sheridan Linnell 2010

Cultural Difference and Social Solidarity - Scott H. Boyd 2014-03-17
Cultural Difference and Social Solidarity: Solidarities and Social Function explores solidarity as a social function bringing to the fore the critical value of the concept of solidarity in understanding contemporary societies. The first part of the book (*Solidarities*) provides different theoretical approaches to the conception and exploration of solidarity that depart from the traditional and dominant perspectives within which debates about solidarity take place. This part includes chapters on the origins of the concept of solidarity in French social thought in the

nineteenth century; a critical discussion of the later Foucault's augmentation of his concerns with a critical politics of difference with a politics of parrhesia; Theodor Adorno and the identitarian logic that underpins reconciliation between difference and solidarity in initiatives such as multiculturalism; Alisdair MacIntyre and his rearticulation of Aristotelian virtue ethics to explore the value of solidarity ingrained in the practice of politics as a means of developing solidarity; and a transitional chapter that explores the social function of postcolonial theory. The second part of the book (Social Function) seeks to explore particular cases in which solidarity is constituted. The cases are diverse in global location, level of association, focus on cultural, political and policy contexts, and different approaches to analysis. As such, they provide a set of cases from which different aspects of the problems of making and remaking solidarity can be explored. These chapters include a case study in Israel exploring solidarity and social cohesion through migration, globalisation, and modernising processes; a case study of the African Village Market in Sydney, Australia; an example of the complexities of solidarity and identity in the Slovene context; and an exploration of how state action in Turkey dissolves solidarity in a community through urban housing policies.

Foucault Live - Michel Foucault 1996

The most accessible and exhaustive introduction to Foucault's thought to date, including every extant interview made by Foucault from the mid-60s until his death in 1984. Currently in its fourth printing, Foucault Live is the most accessible and exhaustive introduction to Foucault's thought to date. Composed of every extant interview made by Foucault from the mid-60s until his death in 1984, Foucault Live sheds new light on the philosopher's ideas about friendship, the intent behind his classical studies, while clarifying many of the professional and popular misinterpretations of his ideas over the course of his career. As Gilles Deleuze noted, "the interviews in this book go much further than anything Foucault ever wrote, and they are indispensable in understanding his life work." Most notably, Foucault Live includes interviews he made with the gay underground press during his stays in America during the 1970s. In them, Foucault suggests that homosexuality presents a new paradigm for ways of living beyond the predictable, binary couple. All of the philosopher's interests, from madness and delinquency to film and sexuality, and their resultant writings, are probed by knowledgeable critics and journalists. After reading this book, the reader can explore key notions such as episteme, savoir and connaissance, archeology, and archive, without the knitted brow that plagued Foucault's public when he was alive. This is the guide to Foucault's life as an agent provocateur in the world of philosophy and scholarship.

Queer Terror - C. Heike Schotten 2018-08-21

After Sept. 11, 2001, George W. Bush declared, "Either you are with us, or you are with the terrorists." Bush's assertion was not simply jingoist bravado—it encapsulates the civilizationalist moralism that has motivated and defined the United States since its beginning, linking the War on Terror to the nation's settlement and founding. In Queer Terror, C. Heike Schotten offers a critique of U.S. settler-colonial empire that draws on political, queer, and critical indigenous theory to situate Bush's either/or moralism and reframe the concept of terrorism. The categories of the War on Terror exemplify the moralizing politics that insulate U.S. empire from critique, render its victims deserving of its abuses, and delegitimize resistance to it as unthinkable and perverse. Schotten provides an anatomy of this moralism, arguing for a new interpretation of biopolitics that is focused on sovereignty and desire rather than racism and biology. This rethinking of biopolitics puts critical political theory of empire in dialogue with the insights of both native studies and queer theory. Building on queer theory's refusal of sanctity, propriety, and moralisms of all sorts, Schotten ultimately contends that the answer to Bush's ultimatum is clear: dissidents must reject the false choice he presents and stand decisively against "us," rejecting its moralism and the sanctity of its "life," in order to further a truly emancipatory, decolonizing queer politics.

Virtue, Fortune, And Faith - Marieke De Goede 2005

A revealing examination of the often misunderstood history of contemporary financial markets.

The Routledge Guidebook to Foucault's The History of Sexuality - Chloe Taylor 2016-11-03

Michel Foucault's The History of Sexuality is one of the most influential philosophical works of the twentieth century and has been instrumental in shaping the study of Gender, Feminist Theory and Queer Theory. But Foucault's writing can be a difficult book to grasp as Foucault assumes a

familiarity with the intellectually dominant theories of his time which renders many passages obscure for newcomers to his work. The Routledge Guidebook to Foucault's The History of Sexuality offers a clear and comprehensive guide to this groundbreaking work, examining: The historical context in which Foucault wrote A critical discussion of the text, which examines the relationship between The History of Sexuality, The Use of Pleasure and The Care of The Self The reception and ongoing influence of The History of Sexuality Offering a close reading of the text, this is essential reading for anyone studying this enormously influential work.

The Culture of Confession from Augustine to Foucault - Chloe Taylor 2010-05-26

Drawing on the work of Foucault and Western confessional writings, this book challenges the transhistorical and commonsense views of confession as an innate impulse resulting in the psychological liberation of the confessing subject. Instead, confessional desire is argued to be contingent and constraining, and alternatives to confessional subjectivity are explored.

Manufacturing the Mathematical Child - Anna Llewellyn 2018-05-15

Mathematics is a subject held in high esteem around the world, yet the teaching and learning of mathematics is rarely viewed as good enough and many find the subject difficult to comprehend, or engage with. In Manufacturing the Mathematical Child, Anna Llewellyn asks some difficult questions in order to determine why this is the case and to question who it is that we allow to succeed at mathematics, particularly within the context of neoliberalism, where education is a product of the market. By looking at the various sites of production, Llewellyn examines the ways that key discursive spaces produce very different expectations of what it means to do mathematics and demonstrates that these place various homogenised expectations upon children. Arguing that these are not natural, but instead a reproduction of discursive norms, the book demonstrates why some people fit these standardized ways of being and others do not. Using England as a case study and referring to other international contexts, Llewellyn argues that there is a functionality found within certain educational policy discourses, and a romantic attachment to the natural child found within educational research, neither of which can match what happens in the messy classroom. As a result, it becomes evident that exclusion from mathematics is inevitable for many children. Original and exciting, this book will be of great interest to academics, researchers and postgraduate students within the fields of mathematics education, childhood studies, policy studies, and Foucauldian or post-structural analysis.

Ecological Relations - Susan Board 2003-08-29

International relations (IR) traditionally theorises the social relationships between different peoples. In so doing, it ignores the ecological bases to life - the ground upon which we walk, the all-encompassing bind of nature. In the current climate of environmental degradation, international relations as a theory must in turn be altered. By broadening the term 'relations' to include this ecological framework, international relations can be approached from a changed perspective. In this book, Susan Board uses a Foucauldian model of power to expand the boundaries of international relations. She argues that 'relations' can include other people or animals, and are not exclusively between states. Such a perspective acts to denaturalise the marginalization of women, animals and indigenous peoples and hence expand the constrained discipline of IR. By rethinking international relations to put ecological foundations first, we are pushed to think and act with consideration of the long-term sustainability of the global environment; an ecological focus reminds us of our interdependence with our environment and all our neighbours. The book raises conceptual and methodological issues that go directly to the heart of current critical engagements within the discipline of IR. As such it will be of great interest to students and researchers in IR, environmental politics and political theory.

Foucault, Feminism, and Sex Crimes - Chloë Taylor 2018-10-08

This book brings together Foucault's writings on crime and delinquency, on the one hand, and sexuality, on the other, to argue for an anti-carceral feminist Foucauldian approach to sex crimes. The author expands on Foucault's writings through intersectional explorations of the critical race, decolonial, critical disability, queer and critical trans studies literatures on the prison that have emerged since the publication of Discipline and Punish and The History of Sexuality. Drawing on Foucault's insights from his genealogical period, the book argues that those labeled as sex offenders will today be constructed to re-offend twice over, once in virtue of the delinquency with which they are inculcated through criminological discourses and in the criminal

punishment system, and second in virtue of the manners in which their sexual offense is taken up as an identity through psychological and sexological discourses. The book includes a discussion of non-retributive responses to crime, including preventative, redistributive, restorative, and transformative justice. It concludes with two appendixes: the original 19th-century medico-legal report on Charles Jouy and its English translation by the author. Foucault, Feminism, and Sex Crimes will be of interest to feminist philosophers, Continental philosophers, Women's and Gender Studies scholars, social and political theorists, as well as social scientists and social justice activists.

Global Nomads - Anthony D'Andrea 2007-01-24

Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, *Global Nomads* develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Foucault and the Politics of Rights - Ben Golder 2015-10-07

This book focuses on Michel Foucault's late work on rights in order to address broader questions about the politics of rights in the contemporary era. As several commentators have observed, something quite remarkable happens in this late work. In his early career, Foucault had been a great critic of the liberal discourse of rights. Suddenly, from about 1976 onward, he makes increasing appeals to rights in his philosophical writings, political statements, interviews, and journalism. He not only defends their importance; he argues for rights new and as-yet-unrecognized. Does Foucault simply revise his former positions and endorse a liberal politics of rights? Ben Golder proposes an answer to this puzzle, which is that Foucault approaches rights in a spirit of creative and critical appropriation. He uses rights strategically for a range of political purposes that cannot be reduced to a simple endorsement of political liberalism. Golder develops this interpretation of Foucault's work while analyzing its shortcomings and relating it to the approaches taken by a series of current thinkers also engaged in considering the place of rights in contemporary politics, including Wendy Brown, Judith Butler, and Jacques Rancière.

At the Limits of the Political - Inna Viriasova 2018-03-16

Offering a critical introduction to the philosophical debate on the concept of the political, this book explores recent developments in continental philosophy. Inna Viriasova engages with key contemporary thinkers including Agamben, Esposito, Henry and Meillassoux and explores the debate in the context of the Italian concept of the impolitical.

J.G. Ballard's Politics - Florian Cord 2017-01-23

This book is the first sustained investigation of the political dimension in the work of J.G. Ballard. A product of and reaction to the cultural-socio-economic moment commonly designated as the postmodern condition, Ballard's oeuvre is read as a continuous and developing meditation on the postmodern, examining it specifically as an expression of late capitalism. The book shows that at the heart of this meditation lies the question of resistance. Drawing on a wide range of concepts and ideas taken from the field of critical theory, it argues that in the face of a world marked by an unprecedented expansion of capital, in which modernity's grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness, Ballard's fiction commits itself to a deliberately irrational and extreme, pataphysical thought in order to develop a new discourse of resistance. Against past readings that have construed Ballard's writing as non-political, decadent, or quietist, the study thus reveals Ballard as a thoroughly political author, committed to a subversive politics. In this way, the book also constitutes a timely intervention in the ongoing discussion concerning the nature and state of the political.

Reflexive Religion: The New Age in Brazil and Beyond - Anthony D'Andrea 2018-11-26

Reflexive Religion examines the rise of alternative spiritualities of the self in contemporary Brazil. Combining late modern theory and multi-site ethnographies of the New Age, it explains how religion is being transformed under globalization, reflexivity and individualism processes.

Leo Bersani - Mikko Tuhkanen 2020-11-12

For the past 60 years, Leo Bersani has inspired, resisted, guided, and challenged scholarly work in the fields of literary criticism, queer theory, cultural studies, psychoanalytic theory, and film and visual studies. Moving across an impressive range of sources, Mikko Tuhkanen seeks out the "fundamental notes"—the questions that we find and re-find in Bersani's extensive oeuvre across the decades. The chapters explore Bersani's engagement with psychoanalytic theory (Freud, Laplanche, Klein, Lacan), French and American modernist fiction (Proust, Baudelaire, Mallarmé, James, Beckett), poststructuralist theory (Derrida, Foucault, Deleuze, Guattari, Blanchot), queer theory (Butler, Edelman), and the visual arts (Caravaggio, Almodóvar, Pasolini, Malick, Dumont). This first introduction to Bersani's work provides a chronological overview of his thought and details his contributions to literary studies and critical theory.

Foucault and Postmodern Conceptions of Reason - Laurence Barry 2020-07-14

For decades Foucault was mostly known for his diagnosis of modernity as a form of entrapment, both in our modes of thought and our behaviors. This book argues that Foucault's reappraisal of modernity occurs with the 1978 and 1979 lectures, in which he sketches modern power as governmentality and neoliberalism. From this perspective, Foucault's once surprising studies on the Greeks' constitution of the 'self' can be seen as a continuation of his diagnosis of late modernity, and as an attempt to retrieve a form of autonomy for our modern selves. One finds in the late Foucault a postmodern conception of reason and not a destruction of reason; but this is possible only if postmodernity is seen as a critical exercise of reason in the analysis of norms.

The American Politics of French Theory - Jason Demers 2019-01-01

Working from the premise that May '68 is a shorthand that delimits an intensive decade of global revolt, Jason Demers documents the cross-pollination of French philosophy, international activist movements, and American countercultures. From the assassinations of Martin Luther King, Jr. and George Jackson to the revolt at Columbia University, the 1968 Democratic National Convention, Woodstock, and the Weather Underground, Demers writes French theory into a constellation of American events and icons uncontained by national borders. More than a compelling new take on the history of theory, *The American Politics of French Theory* develops concepts gleaned from the work of Derrida, Deleuze, Guattari, and Foucault, providing new tools for thinking about translation, theory, and politics. By recontextualizing "French theory" within a complex fabric of mass communication and global revolt, Demers demonstrates why it is politically potent and methodologically necessary to think of translation associatively.

Foucault, Art, and Radical Theology - Petra Carlsson Redell 2018-07-27

Michel Foucault wrote prolifically on many topics including, art, religion, and politics. He also eloquently articulated how power structures are formed and how they also might assist resistance and emancipation. This book uses the hermeneutical lens of Foucault's writings on art to examine the performative, material, and political aspects of contemporary theology. The borderland between philosophy, theology, and art is explored through Foucault's analyses of artists such as Diego Velázquez, Édouard Manet, René Magritte, Paul Rebeyrolle, and Gerard Fromanger. Here special focus is placed on performativity and materiality—or what the book terms the mystery of things. At successive junctures, the book discovers a postrepresentational critique of transcendence; an enigmatic material sacramentality; playful theopolitical accounts of the transformative force of stupidity and nonsense; and political imagery in motion enabling theological interpretations of contemporary collectives such as Pussy Riot and the Sisters of Perpetual Indulgence. In conversation with contemporary thinkers including Catherine Keller, Louise-Marie Chauvet, John Caputo, Daniel Barber, Mark C. Taylor, Jeffrey W. Robbins, and Mattias Martinson, the book outlines this source of inspiration for contemporary radical theology. This is a book with a fresh and original take on Foucault, art, and theology. As such, it will have great appeal to scholars and academics in theology, religion and the arts, the philosophy of religion, political philosophy, and aesthetics.

Governing Child Sexual Abuse - Samantha Ashenden 2016-04-29

The turn of the 1990s saw a number of high profile public inquiries into the handling of child sexual abuse cases in Great Britain. In examines the implications of these inquiries on the regulation of relationships between families and the state, author Samantha Ashenden brings a number of contemporary debates in social and political theory to bear upon the governance of child sexual abuse. In particular, drawing on the work of Foucault and Habermas, Ashenden looks at: * how to analyze the boundary between public and private spheres * the legal and scientific determination of legitimate intervention * the relationship between democracy and expertise in the governance of social life. Timely and topical, this book will be of particular interest to scholars and students of social and political theory, political sociology, the sociology of law, and social policy.

Michel Foucault - Lynn Fendler 2014-10-23

Michel Foucault's influential work spanned a wide array of intellectual disciplines, his writings having been widely taken up in philosophy, history, literary criticism and political theory. Focusing on the implications of Foucault's theories for education, whilst characterizing them as provocative, problematizing, poetic and playful, Lynn Fendler describes the historical context for understanding Foucault's ground breaking critiques. Including a discussion of his major theories of disciplinary power, genealogy, discourse and subjectivity, this text provides generative explanations of concepts, using analogies to the Internet and to food, in order to connect Foucault's theories to everyday experience.

The Routledge International Handbook of the Sociology of Education - Michael W. Apple 2009-12-16

This collection brings together many of the world's leading sociologists of education to explore and address key issues and concerns within the discipline. The thirty-seven newly commissioned chapters draw upon theory and research to provide new accounts of contemporary educational processes, global trends, and changing and enduring forms of social conflict and social inequality. The research, conducted by leading international scholars in the field, indicates that two complexly interrelated agendas are discernible in the heat and noise of educational change over the past twenty-five years. The first rests on a clear articulation by the state of its requirements of education. The second promotes at least the appearance of greater autonomy on the part of educational institutions in the delivery of those requirements. The Routledge International Handbook of the Sociology of Education examines the ways in which the sociology of education has responded to these two political agendas, addressing a range of issues which cover three key areas: perspectives and theories social processes and practices inequalities and resistances. The book strongly communicates the vibrancy and diversity of the sociology of education and the nature of 'sociological work' in this field. It will be a primary resource for teachers, as well as a title of major interest to practising sociologists of education.

Feminism, Foucault, and Embodied Subjectivity - Margaret A. McLaren 2012-02-01

Argues that Foucault's work employs a conception of subjectivity that is well-suited for feminist theory and politics.

Questioning Leadership - Gabriele Lakomski 2016-11-10

Questioning Leadership offers a diverse mix of cutting-edge research in the field of educational leadership, with contributions from expert and emerging leadership scholars. It contextualises school leadership within broader social and historical contexts and traces its influence on school performance through time, from its relatively modest role within a systems theory paradigm to its growing influence from the 1980s onwards, as exercising leadership came to be perceived as being largely responsible for improving educational outcomes. This book invites the reader to challenge the current orthodoxy of leader-centrism and instead reflect more broadly on the various structural and institutional interrelationships that determine how a school functions successfully. It poses challenging questions, such as: Is leadership really necessary for high-quality school performance? Can schools function effectively without leadership? Is it possible to describe the work that principals do without using the word 'leadership'? How do we challenge the assumption that leadership simply exists and that it is seen as the appropriate default explanation for school performance? This book does not assume that leadership is the key to organisational performance, although it acknowledges the work that principals do. It goes against current orthodoxy and offers varied perspectives on how leadership might be repositioned vis-à-vis organisational and institutional structures. It also suggests some new directions for leading and learning and throws open a discussion on leadership that for too long has been

captured by the assumption that the leader is the cause of organisational performance and learning outcomes in schools. At a time when leadership's dominance seems unshakeable, this is a bold book that should appeal to postgraduate students of educational leadership and management, those undertaking training in educational administration and current school leaders interested in exploring the value of leadership for educational organisations.

Public Relations As Activism - Derina R. Holtzhausen 2013-06-17

This volume applies postmodern theory to public relations, providing an alternative lens to public relations theory and practice and developing public relations theory within the context of postmodernism. Author Derina R. Holtzhausen focuses on two key issues and their application to public relations theory and practice: the postmodernization of society, and the possibilities postmodern theories offer to explain and understand public relations practice in today's changing society. Holtzhausen's argument is that existing theory should be evaluated from a postmodern perspective to determine its applicability to postmodernity. Utilizing practitioner perspectives throughout the volume, she explores the practice of public relations as a form of activism. The volume is intended for scholars and students in public relations. It may be used as a supplemental text in advanced courses on public relations theory, PR management, organizational communication, and related areas.

Problematizing Public Pedagogy - Jake Burdick 2013-10-08

The term 'public pedagogy' is given a variety of definitions and meanings by those who employ it. It is often used without adequately explicating its meaning, its context, or its location within differing and contested articulations of the construct. Problematizing Public Pedagogy brings together renowned and emerging scholars in the field of education to provide a theoretical, methodological, ethical, and practical ground from which other scholars and activists can explore these forms of education. At the same time it increases the viability of the concept of public pedagogy itself. Beyond adding a multifaceted set of critical lenses to the genre of public pedagogy inquiry and theorizing, this volume adds nuance to the broader field of education research overall.

Substance, Judgment, and Evaluation - Patrick T. Flynn 2010-06-10

This book selectively presents the thoughts of scholars and teachers of liberal arts, core text education on how their programs formulate and advance a 'value-centered' education. This volume should be of value to those working with colleagues and texts across disciplines to form a coherent undergraduate program within general education.

Michel Foucault - Dianna Taylor 2014-12-05

Michel Foucault was one of the twentieth century's most influential and provocative thinkers. His work on freedom, subjectivity, and power is now central to thinking across an extraordinarily wide range of disciplines, including philosophy, history, education, psychology, politics, anthropology, sociology, and criminology. "Michel Foucault: Key Concepts" explores Foucault's central ideas, such as disciplinary power, biopower, bodies, spirituality, and practices of the self. Each essay focuses on a specific concept, analyzing its meaning and uses across Foucault's work, highlighting its connection to other concepts, and emphasizing its potential applications. Together, the chapters provide the main co-ordinates to map Foucault's work. But more than a guide to the work, "Michel Foucault: Key Concepts" introduces readers to Foucault's thinking, equipping them with a set of tools that can facilitate and enhance further study.

Spaces of Governmentality - Martina Tazzioli 2014-11-24

The Power Paradox - Anna Bennett 2012-04-13

Bennett identifies fascinating contradictions within discourses of power and relational dynamics, acknowledging the enduring quandary of power struggles: we are all implicated within them.

A Practice of Ethics for Global Politics - Jack L. Amoureux 2015-10-05

What kind of ethics in world politics is possible if there is no foundation for moral knowledge or global reality is at least complex and contingent? Furthermore, how can an ethics grapple with difference, a persistent and confounding feature for global politics? This book responds to the call for a bold and creative approach to ethics that avoids assuming or aspiring to universality, and instead prioritizes difference, complexity and uncertainty by turning to reflexivity, not as method or methodology, but as a practice of ethics for politics. This practice, 'ethical reflexivity', offers individuals, organizations and communities tools to recognize,

interrogate and potentially change the stories they tell about politics—about constraints, notions of responsibility and visions of desirability. The benefits and limits of ethical reflexivity are investigated by the author, who engages writing on critique, rhetoric, affect and relationality, and carefully considers dominant and alternative framings of difficult issues in International Relations (IR)—the 1994 genocide in Rwanda, and the US policies of ‘enhanced interrogation’ and drone strikes. This path-breaking study provokes new possibilities for agency and action and contributes to a growing literature in IR on reflexivity by uniquely elaborating its promise as an ethics for politics, and by drawing on thinkers less utilized in discussions of reflexivity such as Hannah Arendt, Michel Foucault and Aristotle. This book will appeal to scholars and upper-level graduates in several sub-fields of IR, including international/global ethics, IR theory, global governance, international organizations, non-governmental organizations, foreign policy analysis and US foreign policy.

Anaesthetics of Existence - Cressida J. Heyes 2020-05-01

“Experience” is a thoroughly political category, a social and historical product not authored by any individual. At the same time, “the personal is political,” and one's own lived experience is an important epistemic resource. In *Anaesthetics of Existence* Cressida J. Heyes reconciles these two positions, drawing on examples of things that happen to us but are nonetheless excluded from experience. If for Foucault an “aesthetics of existence” was a project of making one's life a work of art, Heyes's “anaesthetics of existence” describes antiprojects that are tacitly excluded from life—but should be brought back in. Drawing on critical phenomenology, genealogy, and feminist theory, Heyes shows how and why experience has edges, and she analyzes phenomena that press against those edges. Essays on sexual violence against unconscious victims, the temporality of drug use, and childbirth as a limit-experience build a politics of experience while showcasing Heyes's much-needed new philosophical method.
