A roommate's bizarre secret liberates a repressed young woman. ## **Touching History** - Lynn Spencer 2008-06-03

On the azure blue morning of 9/11 the skies were pronounced "severe clear," in the parlance of airline pilots; a gorgeous day for flying. Nearly 5,000 flights were cruising the skies over America when FAA Operations Manager Ben Sliney arrived at the Command Center for his first day on that job. He could never have anticipated the historic drama that was about to unfold as Americans who found themselves on the front lines of a totally unprecedented attack on our homeland sprang into action to defend our country and save lives. In this gripping moment-to-moment narrative, based on groundbreaking reporting, Lynn Spencer brings the inspiring true drama of their unflinching and heroic response vividly to life for the first time, taking us right inside the airliner cockpits and control towers, the fighter jets and the military battle cabs. She makes vital corrections to the findings of the 9/11 Commission Report, and reveals many startling, utterly unknown elements of the story. As a commercial pilot herself, for whom the attacks hit terribly close to home, she knew that the true scope and nature of the response so brilliantly improvised that morning by those in the thick of the action -- with so little guidance from those at the highest levels -- had not at all been captured by the news coverage or the 9/11 Commission. To get to the truth, she went on a three-year quest, interviewing hundreds of key players, listening to untold hours of tapes and pouring through voluminous transcripts to re-create each heart-stopping moment as it happened through their eyes and in their words as the drama unfolded. From the shocking moment at 7:59 a.m. that American 11 fails to respond to a controller's call, until the last commercial flight has safely

landed and military jets rule the skies, all Americans will find themselves deeply moved and amazed by the grace and fierce determination of these steely men and women as they draw on all of their exquisite training to grasp, through the fog of war, what is happening, put their lives on the line, and mount an astonishing response. This beautifully crafted and deeply affecting account of the full story of their courageous actions is a vital addition to the country's understanding of a day that has forever changed our nation.

**Touching the Past** - Marijke J. van der Wal 2013-07-17

The study of ego-documents figures as a prominent theme in cutting-edge research in the Humanities. Focusing on private letters, diaries and autobiography, this volume covers a wide range of different languages and historical periods, from the sixteenth century to World War I. The volume stands out by its consistent application of the most recent developments in historical-sociolinguistic methodology in research on first-person writings. Some of the articles concentrate on social differences in relation to linguistic variation in the historical context. Others hone in on self-representation, writer-addressee interaction and identity work. The key issue of the relationship between speech and writing is addressed when investigating the hybridity of ego-documents, which may contain both "oral" features and elements typical of the written language. The volume is of interest to a wide readership, ranging from scholars of historical linguistics, sociolinguistics, sociology and

social history to (advanced) graduate and postgraduate students in courses on language variation and change.
