The European Revolutions, 1848-1851 -

Jonathan Sperber 1994-01-28

A student textbook designed to introduce, in an accessible manner, all the principal themes and problems of this period in European history.

Arthur Young's Travels in France - Arthur Young 1905

[Sans-culottes](#) - Michael Sonenscher 2008

'Sans-Culottes' sets out a new way of thinking

about the history of the French Revolution. It's starting point is the now-forgotten original meaning of the phrase sans culottes, or what the condition of being without breeches (sans culottes) once meant in the 18th century.

Readers' Guide to Periodical Literature - 1922

The Most Dangerous Game - Richard Connell
2020-04-21

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful

tale “has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill” (*The Telegraph*). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —*Criterion*

Nationality and Citizenship in Revolutionary France - Michael Rapport 2000

In 1789 the French Revolution opened with a cosmopolitan flourish and progressive observers across the world hailed a new era of international fraternity, based on a new kind of politics. Foreigners were welcomed to France, to enrich the regenerated nation and to become citizens. By the Terror of 1793-94, however, this universalist promise had all but died. Some foreigners in France were guillotined, hundreds of others were jailed, expelled, watched closely and were obliged to carry special identity cards. How and why foreigners were squeezed out of French social and political life- and to what

extent- is the subject of this book. Besides such issues as citizenship, nationality, passports and surveillance, this study considers the experience of specific types of foreigners, like those who served in the French army; in the clergy; foreign radicals or patriots; and those who contributed to French economic life. The dramatic transformation in the fortunes of foreigners during the revolution reveals much about the origins of modern concepts of nationality and citizenship and the development of national identities. In defining the limit of the nation, the revolutionaries and foreigners alike faced difficulties which have particular resonance today.

Mind of Napoleon - J. Christopher Herold
2016-07-26

This collection of written and spoken statements of Napoleon serves not as an historical record or analysis, but as insight into the mind and character of a fascinating historical figure. It demonstrates the luminous strength and almost

supernatural power of Napoleon's mind, displaying an exceptional energy in thought as well as action. The selections are edited and organized topically to offer a broad range of subjects—from "The Human Heart" to "The Art of War"—and to establish a coherent, unified pattern, providing a fresh perspective on the genius of Napoleon. The sources used fall into three categories: (1) Napoleon's writings, including autograph manuscripts and dictations of letters, orders, decisions, bulletins, proclamations, newspaper articles, memoirs, commentaries, etc.; (2) Napoleon's oral opinions as given at the Conseil d'Etat, including stenographic transcripts, official minutes, and unofficial notes taken by various councilors; (3) recorded conversations and reminiscences of Napoleon's contemporaries from about 1800 to 1821.

[PISA Take the Test Sample Questions from OECD's PISA Assessments](#) - OECD 2009-02-02
This book presents all the publicly available

questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

World History - Roger B. Beck 2006-02-09

A Little History of the World - E. H. Gombrich 2014-10-01

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full

color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

The American Journey - Joyce Appleby 2000
American history text includes multimedia connections to the Internet, CD-ROM, and videodisc technology. Middle school level.

The Enlightenment - Patrice Sherman 2012-07-30

How did the universe work? How did the human mind learn? What kind of government was best? These are some of the questions that people

asked during the Age of Ideas, or the Enlightenment. Readers will learn about some of the most important aspects, ideas, and people of this time, including John Locke, David Hume, Voltaire, Copernicus, and Romanticism. Through intriguing facts and engaging sidebars, readers will also discover the incredible outcomes of the Scientific Revolution and how scientists like Galileo, Isaac Newton, and Johannes Kepler changed the way people see the world! The colorful images and supportive text work together to help readers understand the major impact the French Revolution had on the French people, as well as the influence it had on the American Revolution.

Marie-Antoinette, Daughter of the Caesars -

Elena Maria Vidal 2016-05-03

Marie-Antoinette, Daughter of the Caesars is about the life, death and legacy of Louis XVI's tragic Queen, based upon the author's thirty years of research. Whenever possible the historical persons speak for themselves out of

memoirs and letters. Marie-Antoinette is seen in light of her Imperial heritage as a child of the Habsburg dynasty. Having assumed the crown of the Holy Roman Empire in the 1400's, the crown which had originated with Charlemagne in the year 800, they were seen as the continuation of the Roman Empire of the West. The Habsburgs and their allies kept the Muslims from overrunning Europe at both the Battle of Lepanto in 1571 and at the battle of Vienna in 1683. The fall of Marie-Antoinette, as both Queen of France and the youngest daughter of the Imperial Family, is indicative of the end of Christian civilization and the birth of the secular state, which was the object of the French Revolution. Through her death, Marie-Antoinette has been dubbed "Martyred Queen of Christian Europe" for in killing her the revolutionaries also symbolically killed all that she represented, the ancient heritage of Christendom.

Dare to Lead - Brené Brown 2018-10-09

#1 NEW YORK TIMES BESTSELLER • Brené

Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries *Brené Brown: Atlas of the Heart!* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear,

and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to

answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The World Book Encyclopedia - 2002

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Leveled Books (K-8) - Irene C. Fountas 2006

Discusses the use of leveled texts in

kindergarten through eighth-grade classrooms, examines the "text base" needed for effective language literacy instruction, provides guidelines for creating a high-quality leveled book collection and matching books to readers, and explains how to analyze and level books. [The Joy of the Gospel](#) - Pope Francis 2014-10-07 The perfect gift! A specially priced, beautifully designed hardcover edition of *The Joy of the Gospel* with a foreword by Robert Barron and an afterword by James Martin, SJ. "The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." - Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he

emphasizes the importance of service to God and all his creation. Advocating for “the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned,” the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, “to recognize the traces of God’s Spirit in events great and small.” Profound in its insight, yet warm and accessible in its tone, *The Joy of the Gospel* is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of *Catholicism: A Journey to the Heart of the Faith* and James Martin, SJ, author of *Jesus: A Pilgrimage*

The Twilight of the Goddesses - Madelyn Gutwirth 1992

From *Library Journal* Gutwirth (professor emeritus, French, West Chester Univ.) explores

the ambiguous, generally powerless existence of 18th-century French women and the roles male contemporaries assigned them. She marshals her arguments to greatest purpose when pondering the French Revolution; her discussion of contrasting depictions of Marie Antoinette as a naive consort and a demonized symbol constitutes a highlight. While these ruminations draw upon 200 years of distinguished historiography, sections based on original research, such as the half of the book devoted to salon/Enlightenment culture, are often turgid and tentative. Gutwirth's clumsy syntax is leavened by sporadic phrases of simple elegance, but readers with less than a professional interest in gender studies or 18th-century French society will shun her pedantry. Libraries supporting scholars in these areas, however, will need to own it for her frequent insights.

Revolutions: A Very Short Introduction - Jack A. Goldstone 2014-02

Revolutions have shaped world politics for the last three hundred years. This volume shows why revolutions occur, how they unfold, and where they created democracies and dictatorships. Jack A. Goldstone presents the history of revolutions from America and France to the collapse of the Soviet Union, 'People Power' revolutions, and the Arab revolts.

The Jacobin Republic Under Fire - Paul R. Hanson 2003

One of the central questions of the French Revolution is what happened to the country from the time the monarchy collapsed in the summer of 1791, when the prospects for popular democracy seemed brightest, to the Terror of 1793-94, when the Committee of Public Safety ruled by fiat and repression. A key moment during this interim period was the so-called Federalist Revolt, when four provincial cities - Caen, Bordeaux, Lyon, and Marseille - rebelled against the more radical revolutionaries in Paris threatening to plunge France into civil war. Over

the years some very good work has been published on the Federalist Revolt, but no one has attempted an overarching study of the event in more than a century. It is time for a major work of synthetic interpretation, and this is what *The Jacobin Republic Under Fire* offers. The revolt pitted federalist rebels from the provinces, supporters of the Girondins, against the republican Montagnards (also known as Jacobins), who dominated the National Convention in Paris. The four federalist cities never succeeded in creating a unified resistance to Paris, but the revolt had a substantial impact on revolutionary politics. In July 1793, Maximilien Robespierre joined the Committee of Public Safety, at which time the Montagnards moved decisively to quell the provincial rebels - the first major act of the Terror. Hanson presents a general narrative of the events as well as a pointed analysis that ultimately seeks to identify what, exactly, divided Girondins from Montagnards. According to Hanson, the conflict

arose over the question of popular sovereignty:
Who are the sovereign people, and how are they
to exercise their sovereignty?

Modern France - Vanessa R. Schwartz

2011-10-10

The French Revolution, politics and the modern
nation -- French and the civilizing mission --
Paris and magnetic appeal -- France stirs up the
melting pot -- France hurtles into the future.

Democracy in America - Alexis de Tocqueville
1862

Learn about the United States - U.S.

Citizenship and Immigration Services 2009

"Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

The Origins of Political Order - Francis Fukuyama 2011-05-12

Nations are not trapped by their pasts, but events that happened hundreds or even thousands of years ago continue to exert huge influence on present-day politics. If we are to understand the politics that we now take for granted, we need to understand its origins.

Francis Fukuyama examines the paths that different societies have taken to reach their current forms of political order. This book starts with the very beginning of mankind and comes right up to the eve of the French and American revolutions, spanning such diverse disciplines as economics, anthropology and geography. The *Origins of Political Order* is a magisterial study on the emergence of mankind as a political animal, by one of the most eminent political thinkers writing today.

Library of the World's Best Literature: Guide to systematic reading - Charles Dudley Warner 1902

Letters on England - Voltaire 1894

The Family and the Nation - Jennifer Ngairé Heuer 2005

The French Revolution transformed the nation's--and eventually the world's--thinking about citizenship, nationality, and gender roles. At the

same time, it created fundamental contradictions between citizenship and family as women acquired new rights and duties but remained dependents within the household. In *The Family and the Nation*, Jennifer Ngaire Heuer examines the meaning of citizenship during and after the revolution and the relationship between citizenship and gender as these ideas and practices were reworked in the late 1790s and early nineteenth century. Heuer argues that tensions between family and nation shaped men's and women's legal and social identities from the Revolution and Terror through the Restoration. She shows the critical importance of relating nationality to political citizenship and of examining the application, not just the creation, of new categories of membership in the nation. Heuer draws on diverse historical sources--from political treatises to police records, immigration reports to court cases--to demonstrate the extent of revolutionary concern over national citizenship.

This book casts into relief France's evolving attitudes toward patriotism, immigration, and emigration, and the frequently opposing demands of family ties and citizenship.

World History & Geography - Jackson J. Spielvogel 2020

World History - Elisabeth Gaynor Ellis
2012-04-01

The Age of Johnson - Jack Lynch 2021-06-18
Volume 24 features commentary on a range of Johnsonian topics: his reaction to Milton, his relation to the Allen family, his notes in his edition of Shakespeare, his use of Oliver Goldsmith in his Dictionary, and his always fascinating *Nachleben*. The volume also includes articles on topics of strong interest to Johnson: penal reform, Charlotte Lennox's professional literary career, and the "conjectural history" of Homer in the eighteenth century.
Origins of the French Revolution - William Doyle

1999

First published in 1980, this book rapidly established itself as the indispensable guide to what brought about the French Revolution, and to the debates of historians about the issue. It combined a full critical account of recent controversies with a fresh interpretation taking stock of where the debate had led. Since 1980 discussion among historians has continued as lively as ever, and has moved in directions scarcely explored at that time. The 'revisionist' criticism which destroyed the classic mid-century consensus emphasizing the Revolution's social and economic origins has opened the way to a 'post-revisionist' approach focused on cultural change. This new edition brings the subject up to date with an extensively rewritten survey of the historiography up to the present day, and a revised interpretation modified in the light of research by a new generation of scholars. It will thus remain the starting point for any serious study of

the greatest of all revolutions, which lies at the root of the modern political world. 'important book . . . readable and perceptive analysis', Times Higher Education Supplement 'His book is excellent, achieving the rare distinction of being both useful and revealing', Spectator 'brief, clear, and thoughtful', Journal of Modern History

Don't go there. It's not safe. You'll die. And other more >> rational advice for overlanding Mexico & Central America - 2012

Your complete guide for overlanding in Mexico and Central America. This book provides detailed and up-to-date information by country. Completed by the authors of LifeRemotely.com this is the most comprehensive guide for driving the Pan American yet!

Rich Johnson's Guide to Trailer Boat Sailing

- Rich Johnson 2009-08

trailerable sailboat is the ideal way to explore the country ? wherever there is water. To make the most of this exciting lifestyle, owners of trailerable sailboats need three things ? an understanding of the boat and how to use it; knowledge about the tow vehicle and trailer used to transport the boat; and a spirited sense of adventure to live the dream. #13;#13; This book will help you get started. #13;#13; #13;

Unitarian Radicalism - Stuart Andrews
2003-02-22

The Unitarian confrontation with the late 18th century political establishment is reflected in published sermons, pamphlets, and parliamentary debates. Price and Priestley were only the most notorious members of a well-educated, close-knit, and highly articulate intellectual opposition, all the more formidable for dominating the major literary reviews. Focusing on many lesser-known dissenting

polemicists, this study uncovers unexpected continuities in Unitarian critiques of government policies and questions whether Burke was justified in equating antitrinitarians with French republicans.

The Age of Napoleon - J. Christopher Herold
2002

THE AGE OF NAPOLEON is the biography of an enigmatic and legendary personality as well as the portrait of an entire age. J. Christopher Herold tells the fascinating story of the Napoleonic world in all its aspects -- political, cultural, military, commercial, and social. Napoleon's rise from common origins to enormous political and military power, as well as his ultimate defeat, influenced our modern age in thousands of ways, from the map of Europe to the metric system, from styles of dress and dictators to new conventions of personal behavior.

The French Revolution - Thomas Carlyle 1901

On Guerrilla Warfare - Mao Tse-tung 2012-03-06
The first documented, systematic study of a truly revolutionary subject, this 1937 text remains the

definitive guide to guerrilla warfare. It concisely explains unorthodox strategies that transform disadvantages into benefits.
