**The Daily Mirror World Cup Rally 40** - Graham Robson 2010-04-08

Lasting six weeks, and covering 16,000 miles from London to Mexico City via some of the most varying, tortuous and difficult terrain on three continents, the 1970 World Cup Rally was a unique high-speed event, attracting many serious works teams such as Ford and British Leyland. Despite the tremendous amounts of money spent choosing and developing new cars, completing months-long route surveys, and analysing every detail of diets, oxygen provision, and the number of crew members, out of an entry of more than 100 cars, only 23 cars made it to the finish. It was then, and remains now, the toughest rally of all time.

*Salt Sugar Fat* - Michael Moss 2013-02-26

From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. Salt Sugar Fat is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). Salt Sugar Fat is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."

**Brand Relevance** - David A. Aaker 2011-01-25

Branding guru Aaker shows how to eliminate the competition and become the lead brand in your market. This ground-breaking book defines the concept of brand relevance using dozens of case studies--Prios, Whole Foods, Westin, iPad and more--and explains how brand relevance drives market dynamics, which generates opportunities for your brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand; By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant; and create barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant. Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors. Describes the threat of becoming irrelevant by failing to make what customer are buying or losing energy. David Aaker, the author of four brand books, has been called the father of branding. This book offers insight for creating and/or owning a new business arena. Instead of being the best, the goal is to be the only brand around--making competitors irrelevant.

Vespa - The Story of a Cult Classic in Pictures - Günther Uhlig 2015-06-15

Eighteen million Vespas have buzzed their way into the world since 1946. Stood end to end, they would form a line measuring 32,000 kilometres - 20,000 miles - in length. The answer is simple. The Vespa has always remained the Vespa, true to itself, and has what others lack: real character! This book tells the Vespa's story via over 470 photos, corrects many misconceptions and lets the reader become immersed in the culture of Vespa and la bella vita.
