Long Walk to Freedom - Nelson Mandela 2008-03-11

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time,

Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Pastoralism in Africa - Michael Bollig 2013-07-30

Pastoralism has shaped livelihoods and landscapes on the African continent for millennia. Mobile livestock husbandry has generally been portrayed as an economic strategy that successfully met the challenges of low biomass productivity and environmental variability in arid and semi-arid environments. This volume focuses on the emergence, diversity, and inherent dynamics of pastoralism in Africa based on research during a twelve-year period on the southwest and northeast regions. Unraveling the complex prehistory, history, and contemporary political ecology of African pastoralism, results in insight into the ingenuity and flexibility of historical and contemporary herders.

Science, Evolution, and Creationism - Institute of Medicine 2008-01-28

How did life evolve on Earth? The answer to this question can help us understand our past and prepare for our future. Although evolution provides credible and reliable answers, polls show that many people turn away from science, seeking other explanations with which they are more comfortable. In the book *Science, Evolution, and Creationism*, a group of experts assembled by the National Academy of Sciences and the Institute of Medicine explain the fundamental methods of science, document the overwhelming evidence in support of biological evolution, and evaluate the alternative perspectives offered by advocates of various kinds of creationism, including "intelligent design." The book explores the many fascinating inquiries being pursued that put the science of evolution to work in preventing and treating human disease, developing new agricultural products, and fostering industrial innovations. The book also presents the scientific and legal reasons for not teaching creationist

ideas in public school science classes. Mindful of school board battles and recent court decisions, Science, Evolution, and Creationism shows that science and religion should be viewed as different ways of understanding the world rather than as frameworks that are in conflict with each other and that the evidence for evolution can be fully compatible with religious faith. For educators, students, teachers, community leaders, legislators, policy makers, and parents who seek to understand the basis of evolutionary science, this publication will be an essential resource.

Three Men in a Boat Illustrated - Jerome K Jerome 2020-06-15

Jerome Klapka Jerome was an English writer and humourist, best known for the comic travelogue Three Men in a Boat. Other works include the essay collections Idle Thoughts of an Idle Fellow and Second Thoughts of an Idle Fellow; Three Men on the Bummel, a sequel to Three Men in a Boat, and several other novels. Jerome sat right down to write Three Men during a Boat as soon because the couple returned from their honeymoon. within the novel, his wife was replaced by his longtime friends George Wingrave (George) and Carl Hentschel (Harris). This allowed him to make comic (and non-sentimental) situations which were nonetheless intertwined with the history of the Thames region. The book, published in 1889, became a moment success and has never been out of

print. Its popularity was such the amount of registered Thames boats went up one-half within the year following its publication, and it contributed significantly to the Thames becoming a tourist attraction. In its first twenty years alone, the book sold over 1,000,000 copies worldwide. it's been adapted to films, TV and radio shows, stage plays, and a musical. Its literary genre influenced many humourists and satirists in England et al. .With the financial security that the sales of the book provided, Jerome was ready to dedicate all of his time to writing. He wrote variety of plays, essays, and novels, but was never ready to recapture the success of Three Men during a Boat. In 1892, he was chosen by Robert Barr to edit The Idler (over Rudyard Kipling). The magazine was an illustrated satirical monthly catering to gentlemen (who, following the theme of the publication, appreciated idleness). In 1893, he founded To-Day, but had to withdraw from both publications due to financial difficulties and a libel suit. Jerome's play Biarritz had a run of two months at the Prince of Wales Theatre between April and June 1896. In 1898, a brief stay in Germany inspired Three Men on the Bummel, the sequel to 3 Men during a Boat, reintroducing an equivalent characters within the setting of a far off bicycle tour. The book was nonetheless unable to capture the life-force and historic roots of its predecessor, and it enjoyed only a light success. In 1902, he published the novel Paul Kever, which is widely considered autobiographical. His 1908 play The Passing of the Third Floor Back introduced a more sombre and non secular Jerome. the most character was played by one among the leading actors of the time, Johnston Forbes-Robertson, and therefore the play was an incredible commercial success. it had been twice made into film, in 1918 and in 1935. However, the play was condemned by critics - Beerbohm described it as "vilely stupid" and as written by a "tenth-rate writer"
