Fundamental Constructs in Mathematics Education - Sue Johnston-Wilder 2004-01-22

Fundamental Constructs in Mathematics Education is a unique sourcebook crafted from classic texts, research papers and books in mathematics education. Linked together by the editors' narrative, the book provides a fascinating examination of, and insight into, key constructs in mathematics education and how they link together. The choice of constructs is based on (some of) the many constructs which have proved fruitful in research and which have informed choices made by teachers. The book is divided into two parts: learning and teaching.

The first part includes views about how people learn - from Plato to Dewey, as well as constructivism, activity theory and French didactiques. The second part includes extracts concerned with initiating, sustaining and bringing to a conclusion learners' work on mathematical tasks. Fundamental Constructs in Mathematics Education provides access to a wide range of constructs in mathematics education and orients the reader towards important original sources.

Sportbike Performance Handbook - Kevin Cameron 1998

EBOOK: Teaching Secondary Mathematics with ICT - Sue Johnston-Wilder 2004-10-16

"This is a book all mathematics teachers and teacher educators should read! It brings together a wealth of insights from a range of authors... The major issues confronting teachers of mathematics who wish to use ICT in different domains of mathematics are addressed in a clear and accessible way." Professor Celia Hoyles OBE, Dean of Research and Consultancy, Institute of Education, University of London Teaching Secondary Mathematics with ICT shows the reader how to use Information and Communication Technology (ICT) effectively to enhance the teaching of mathematics in the secondary school. The book explains which forms of technology can be used to improve mathematics teaching and learning, how to get started and where to go for further information. The first two chapters provide a useful introduction for those new to teaching mathematics with ICT. Further chapters cover topics including: ICT and the curriculum: number, algebra, geometry and statistics Making use of interactive whiteboards in the classroom Using the internet and video-conferencing to enhance teaching The book includes practical classroom scenarios and case studies (for example, the government-funded MathsAlive! Initiative), as well as discussions of general issues, such as the role of feedback and the use of ICT in whole-class teaching. It draws on current research and is supplemented by a linked web site, which provides access to demonstration copies of software and sample files. It also includes a directory of resources with lists of organisations, web sites, projects and further reading. Key reading for Education students specialising in Mathematics and all those teaching secondary mathematics, including non-specialists and those on professional development courses. The Complete Idiot's Guide to Motorcycles - Editors of Motorcyclist Magazine 2008

The Complete Idiot's Guide to Motorcycles, Fourth Edition, is the most complete book on motorcycles, covering everything from how to choose and maintain a motorcycle and how to buy appropriate gear, to how to ride safely, and how to make the most out of trips on the open road.

The South Australian Government Gazette - 1848

Adventure Motorcycling Handbook - Chris Scott 2005

Every red-blooded motorcyclist dreams of making the Big Trip--this updated fifth edition shows them how. Choosing a bike, deciding on a destination, bike preparation, documentation and shipping, trans-continental route outlines across Africa, Asia and Latin America, and back-country riding in SW USA, NW Canada and Australia. Plus--first hand accounts of biking adventures worldwide.

The Four Stroke Dirt Bike Engine Building Handbook - Paul Olesen 2015

Hcpcs 2019 - American Medical Association 2018-12-21

Organized for quick and accurate coding, HCPCS Level II 2019 Professional Edition codebook includes the most current Healthcare Common Procedure Coding System (HCPCS) codes and regulations, which are essential references needed for accurate medical billing and maximum permissible reimbursement. This professional edition includes such features as Netter's Anatomy illustrations, dental codes, and Ambulatory Surgical Center (ASC) payment payment and status indicators. Features and Benefits * Full-color Netter's Anatomy illustrations clarify complex anatomic information and how it affects coding. * At-a-glance code listings and distinctive symbols identify all new, revised, reinstated and deleted codes for 2019. * The American Hospital Association Coding Clinic® for HCPCS citations provides sources for information about specific codes and their usage. * Convenient spiral binding provides easy access in practice settings. * Quantity feature highlights units of service allowable per patient, per day, as listed in the Medically Unlikely Edits (MUEs) for enhanced accuracy on claims. * Drug code annotations identify brand-name drugs as well as drugs that appear on the National Drug Class (NDC) directory and other Food and Drug Administration (FDA) approved drugs. * Color-coded Table of Drugs makes it easier to find specific drug information. * Durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) indicators clearly identify supplies to report to durable medical third-party payers. * Ambulatory Surgery Center (ASC) payment and status indicators show which codes are payable in the Hospital Outpatient Prospective Payment System. * American Dental Association (ADA) Current Dental Terminology code sets offer access to all dental codes in one place. * Jurisdiction symbols show the appropriate contractor to be billed for suppliers submitting claims to Medicare contractors, Part B carriers and Medicare administrative contractors for DMEPOS services. * Special coverage information provides alerts when codes have specific coverage instructions, are not valid or covered by Medicare or may be paid at the carrier's discretion. * Age/Sex edits identify codes for use only with patients of a specific age or sex.
